Eric Curti

Junior Front-End Developer & React student | English Teacher |
Course Instructor | English Translator
Monterrey, Nuevo León, Mexico

Summary

I am an enthusiastic Junior Front-End Developer with a strong foundation in HTML, CSS, JAVASCRIPT, SASS, Bootstrap, Git, and GitHub. My mission is to create visually appealing and efficient web applications, while continuously improving my skills in JavaScript and front-end development.

Professional Background:

During my journey into web development, I have gained hands-on experience building responsive websites and working with front-end technologies. I am proficient in creating user-friendly interfaces using modern frameworks like Bootstrap and SASS. Version control and collaboration using Git and GitHub are integral parts of my workflow, ensuring smooth project management and teamwork.

Previously, I worked in Customer Service and ESL teaching, where I developed strong communication and problem-solving skills. These experiences have enhanced my ability to approach development projects with a user-centric mindset, ensuring that the websites I build are not only functional but intuitive and accessible.

Qualities and Characteristics:

Passionate Developer: I am deeply committed to front-end development and constantly seek to learn new technologies and improve my coding skills. My current focus is mastering JavaScript to become a more well-rounded developer.

Detail-Oriented: I pay close attention to the finer details when designing and coding, ensuring that my work is pixel-perfect and aligned with design principles.

Adaptable Problem Solver: I thrive in dynamic environments and am always ready to adapt to new challenges. I approach every problem

with a solution-oriented mindset, whether it's debugging code or optimizing website performance.

Technologically Proficient: My skill set includes HTML, CSS, SASS, Bootstrap, Git, GitHub, and I am currently enhancing my JavaScript knowledge. I enjoy using these tools to create functional and visually engaging web projects.

Collaborative Team Player: I value teamwork and believe that the best projects come from strong collaboration. I actively participate in team discussions and contribute to creating efficient and scalable web solutions.

Let's Connect:

I am eager to connect with fellow developers, designers, and professionals in the tech community. Whether you are interested in discussing web development trends, collaborating on a project, or exploring job opportunities, feel free to reach out.

Looking forward to connecting!

Experience

Aliança

English Teacher

October 2022 - Present (2 years 6 months)

Oaxaca, Oaxaca, Mexico

As an English Teacher at Alianza for the past two years, I have been responsible for delivering high-quality language instruction to students of varying ages and proficiency levels. My role involved creating engaging lesson plans, fostering a positive and interactive learning environment, and tailoring my teaching methods to meet individual student needs. Throughout my time at Alianza, I prioritized student success by focusing on practical communication skills, enhancing language comprehension, and preparing students for real-world language use. I also collaborated closely with colleagues and parents to ensure student progress and development.
