PROFESSIONAL PROFILE

Motivated and detail-oriented Junior Front-End Developer with a strong foundation in HTML, CSS, JavaScript, and hands-on experience using React, SASS, Firebase, and Git/GitHub. Skilled at building user-friendly interfaces, with a passion for creating clean and efficient code. Former English teacher with 6+ years of experience, bringing excellent communication, adaptability, and problem-solving skills to tech environments. Open to remote, hybrid, or on-site opportunities within dynamic and collaborative teams.

PROJECTS

"Pomodoro Timer" App
Codedex Project | May 2025

🔗 Live Demo

A timer web application based on the Pomodoro technique to improve productivity. The focus was to strengthen JavaScript logic and time-based functions.

• Developed countdown logic and start/pause/reset functionalities using JavaScript.
• Implemented user input for work and break intervals.
• Minimalist UI using basic HTML/CSS to support functional testing.
Tools: JavaScript, HTML, CSS.
Platform: Visual Studio Code.

"LevelUp Store"
Coderhouse Project | Sept. 2024

🔗 Live Demo

E-commerce website for video game products. The platform allows users to browse, search, and add products to the cart. Designed with responsive layout and dynamic features for improved user experience.

• Created UI layout using HTML, CSS, and JavaScript.
• Built product listing, cart logic, and applied interactive discount system.
• Integrated Firebase for hosting and real-time data handling.
Tools: HTML, CSS, JavaScript, Firebase, GitHub.
Platform: Visual Studio Code.

"La Mexicana" Restaurant Website
Coderhouse Project | Apr. 2024 – May. 2024

Static website designed for a fictional Mexican food restaurant. The goal was to practice layout structure, responsive design, and visual aesthetics.

• Structured multiple pages using semantic HTML.
• Styled components using CSS, applying grid and flexbox for responsive layout.
• Focused on design consistency and clean code organization.
Tools: HTML, CSS.
Platform: Visual Studio Code.

🔗 Live Demo

EDUCATION

React Certificate
Coderhouse | Oct 2024 – Dec 2024
Skills: React.js, Mobile Applications, Databases, Routing, Promises.

JavaScript Certificate
Coderhouse | Jul 2024 – Sep 2024
Skills: JavaScript, JSON, JavaScript Libraries, Node.js, Storage.

Front-End Web Development Certificate
Coderhouse | Apr 2024 – Jul 2024
Skills: HTML5, CSS, SASS, Bootstrap, Git, GitHub.
Focus on building responsive, accessible web interfaces and version control.

ADDITIONAL EDUCATION

JavaScript Studies
Codedex | Mar 2025 – Present
Ongoing study of JavaScript fundamentals and advanced concepts to strengthen front-end development skills.
